

## PRIVATE JOE

### LOGLINE and **PITCH**

With generals like these! Oh dear oh dear! Oh fck'n Hell!

Lovelorn teen-aged Private Joe yearns to get home to his girl Jacey. But can he survive the scheming of the wild-eyed PM Tony Scare who's sent him to a ludicrous war in ToughLuckistan? And can he survive Taliban bullets and his absurd commanders General Chaos and Major Blunder with their unhinged drive to crack on? Their American allies ridicule "the big-mouthed Brits." So who can save Joe when he's eyeball-to-eyeball with Sorab the Taliban pointing at his wrist and singing "You have the watches but we have the time?" Can Private Joe get home to his girl?
